Our project

We invite you to explore our portfolio of successful collaborations and innovative solutions. Our work reflects our dedication to excellence, creativity, and delivering impactful results. From concept to execution, we transform ideas into reality with precision and passion.

Classic group

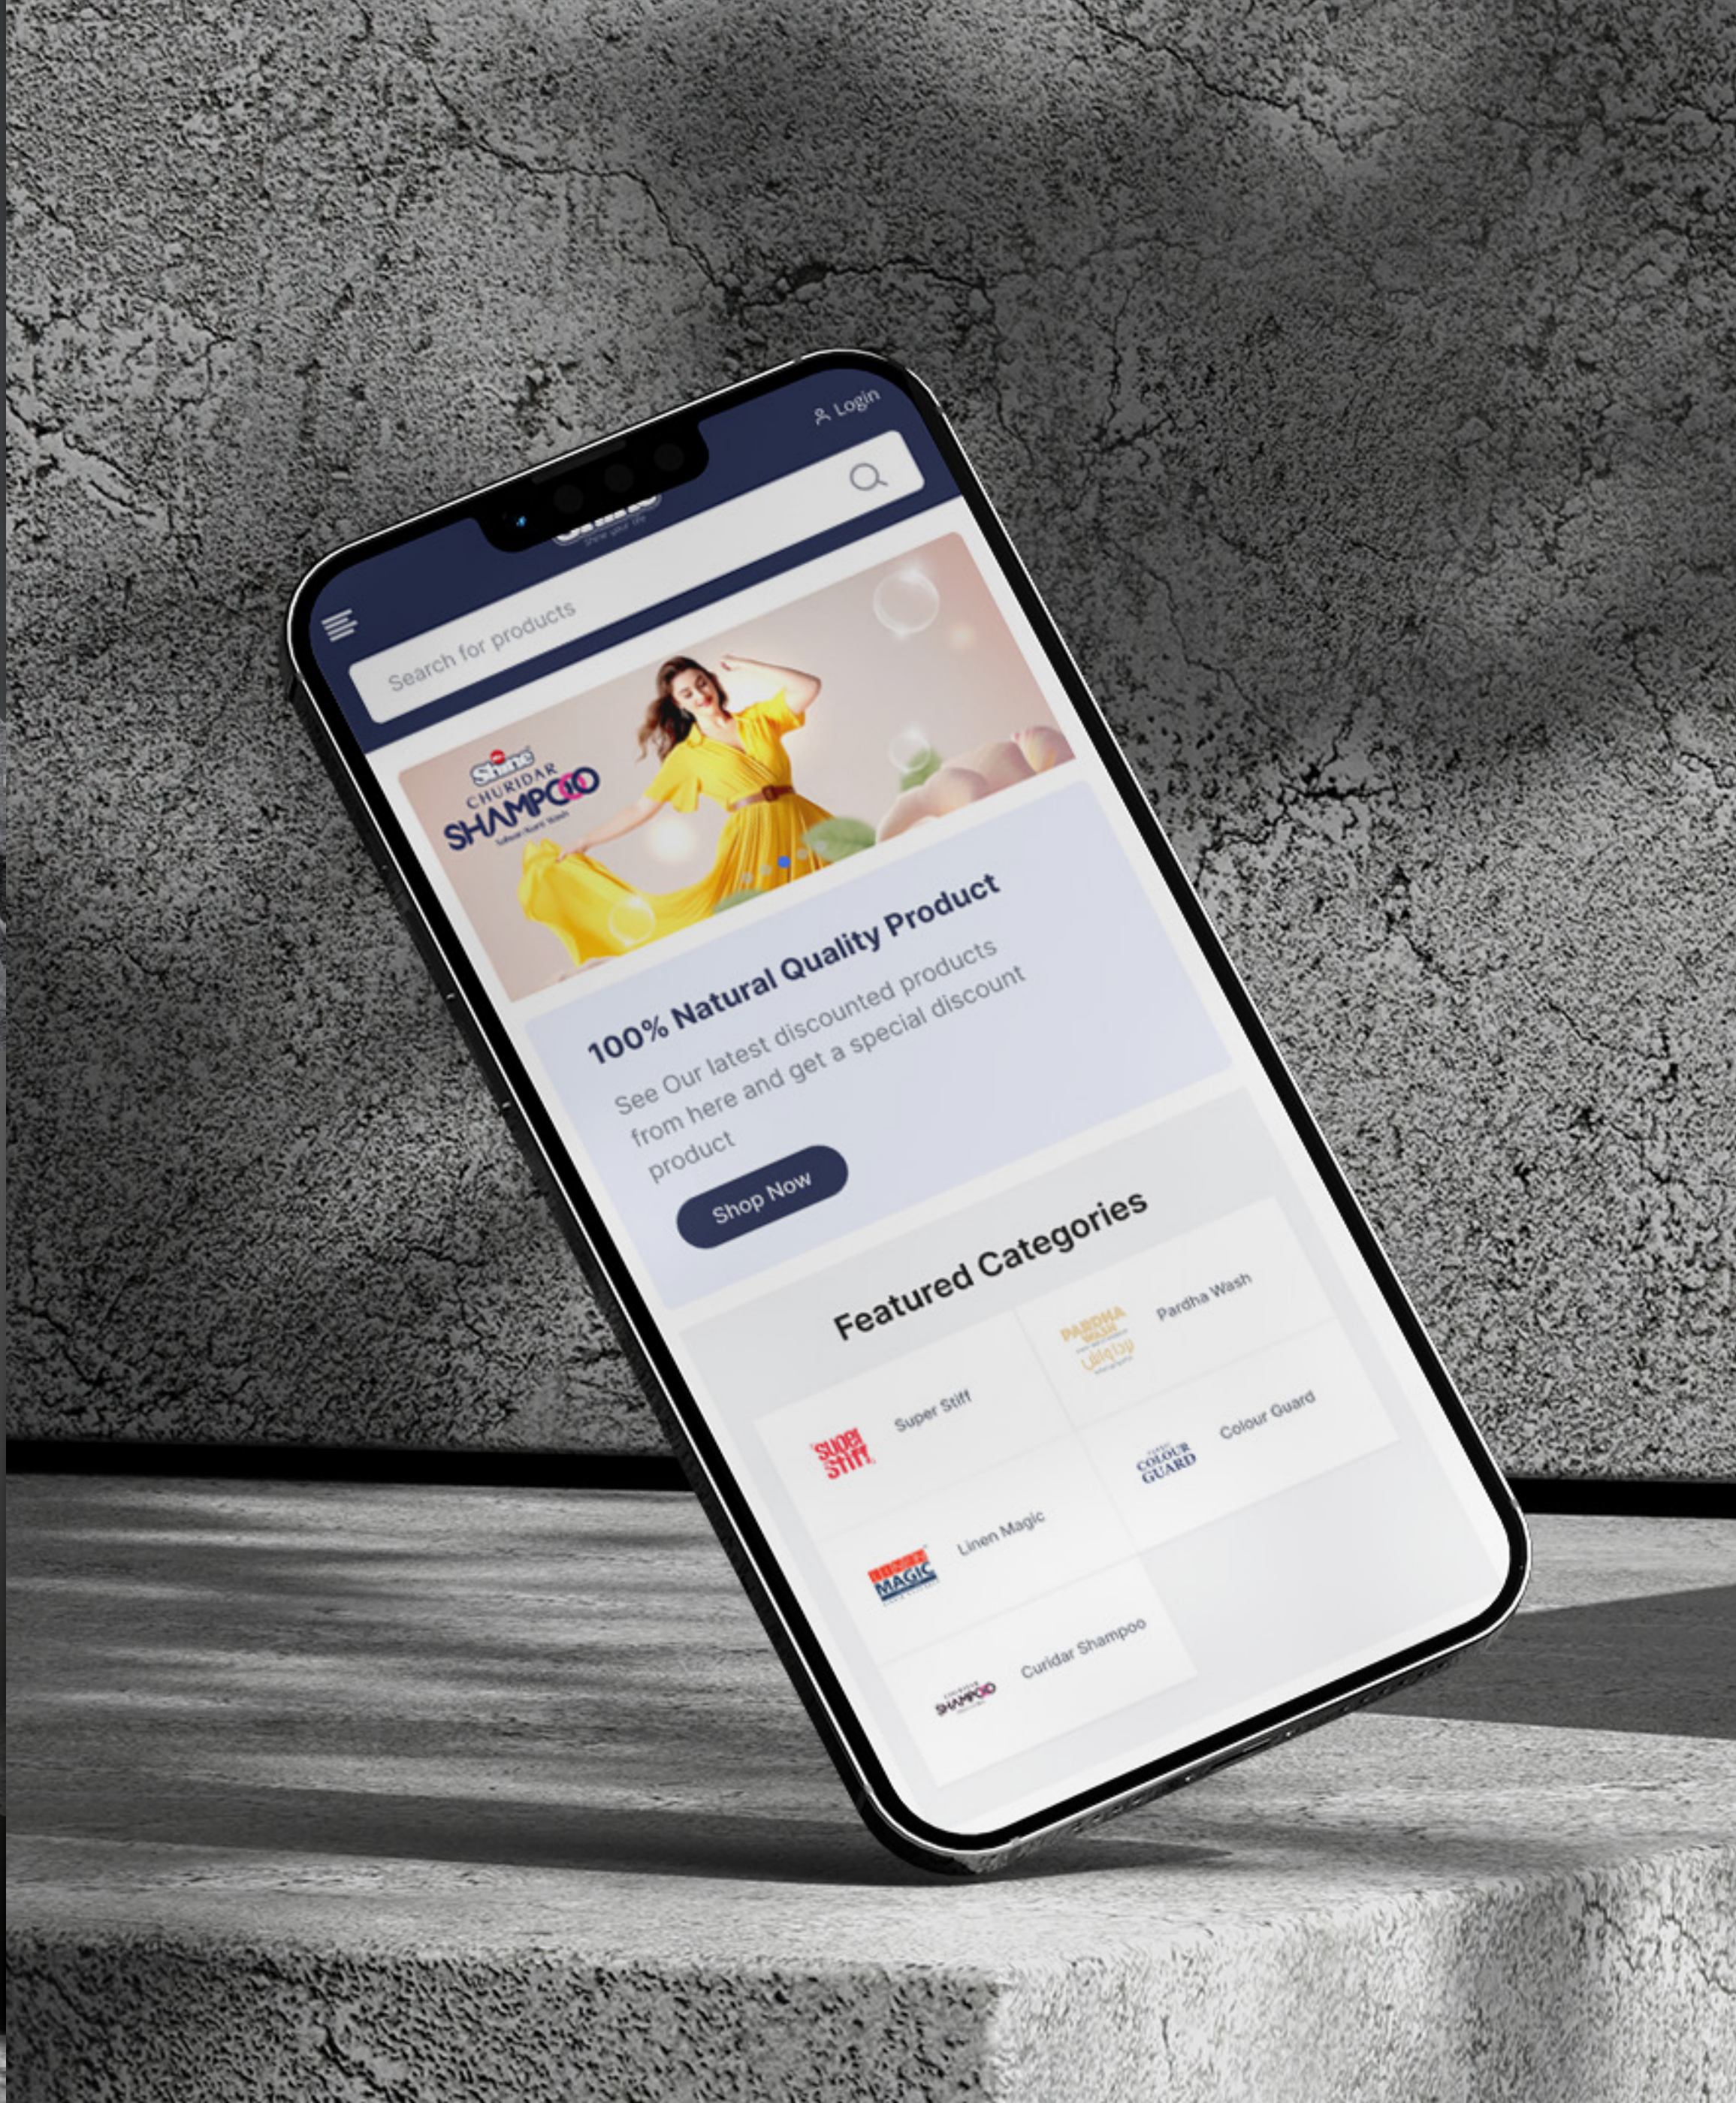

Classic Group of Companies was established in 2006, based in Dubai, has branch in Abu Dhabi, JAFZA and operates in 7 Emirates. It is one of the top 5 limousine companies.

Mr Shine

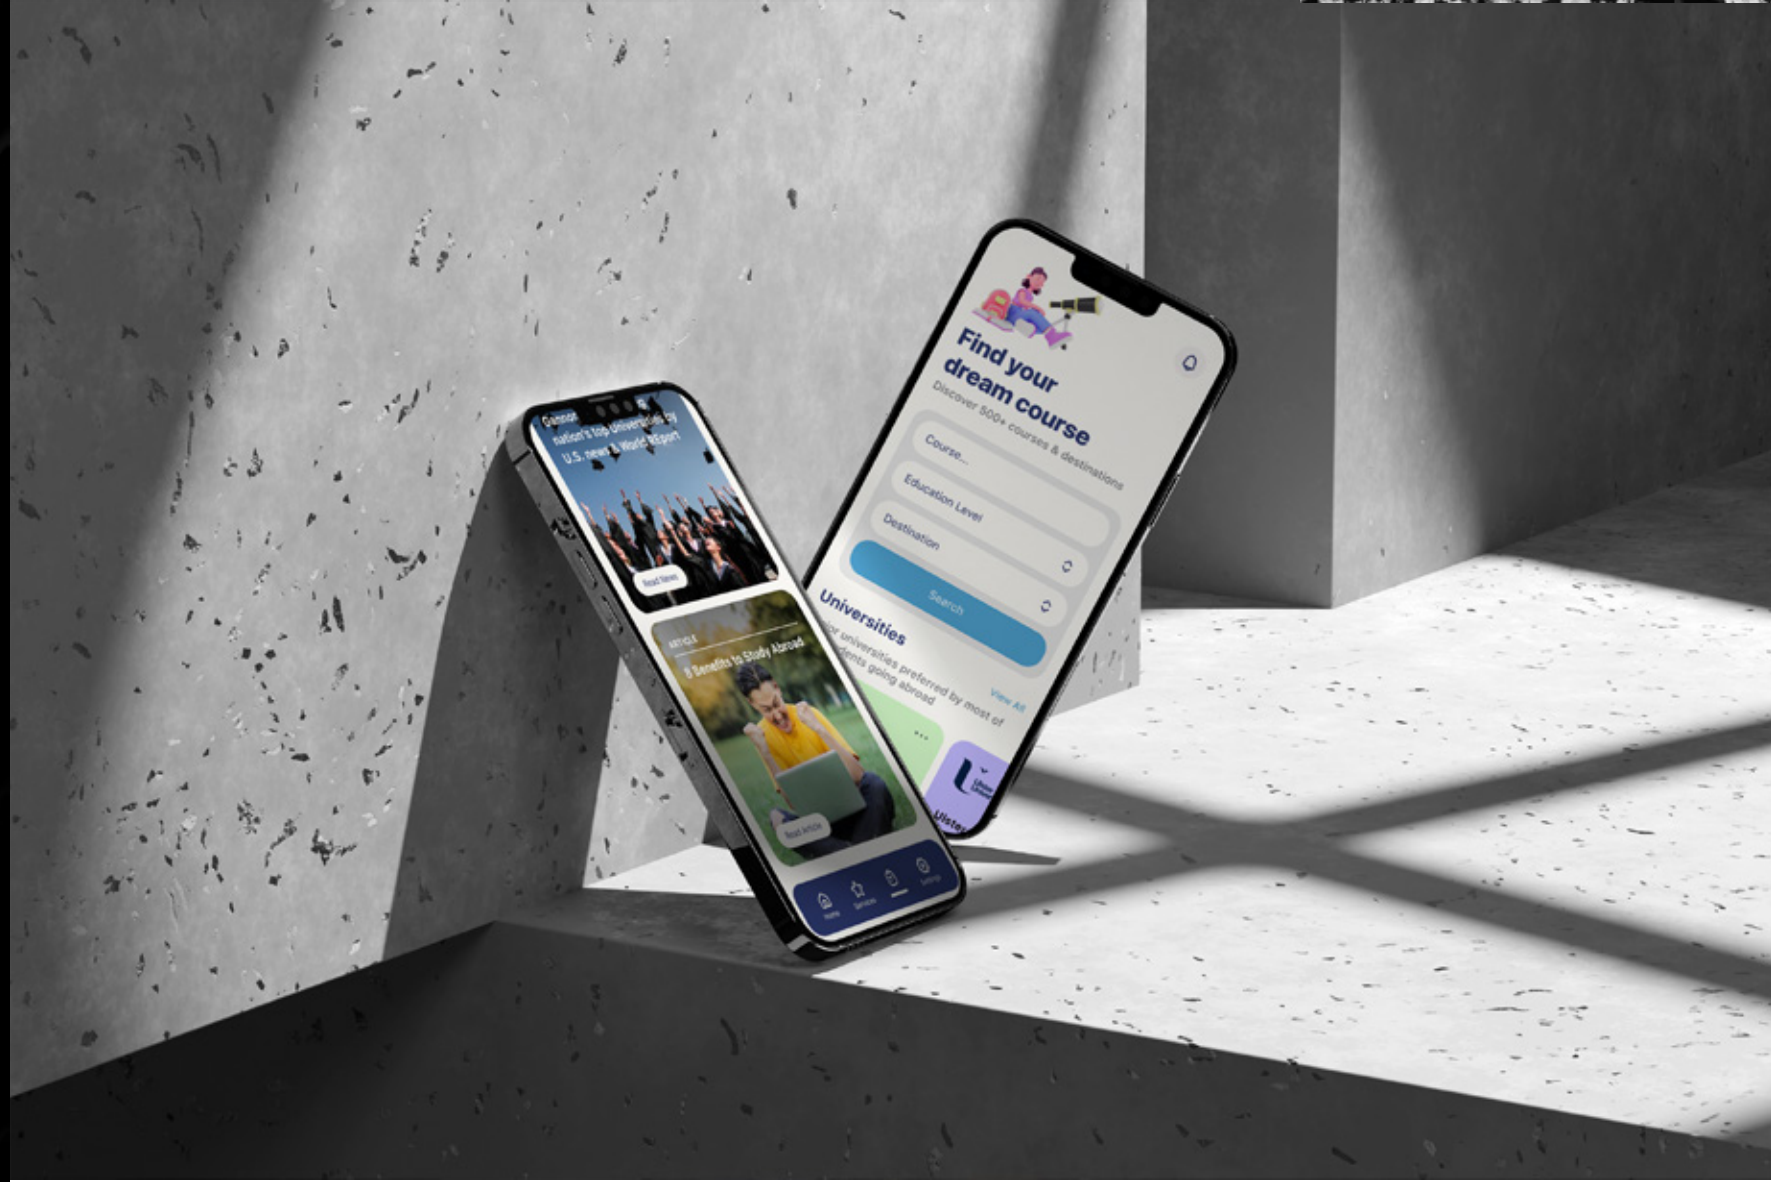

Developed an e-commerce site for Mr Shine, a brand specializing in high-quality washing solutions—from car care to abaya and saree shampoos. This platform allows customers to explore and purchase unique, effective cleaning products tailored to their needs.

Unihelpline

Unihelpline guides students in achieving their study abroad dreams. We built a custom platform that allows students to search for universities based on their preferences, making it easier to find the right fit and meet application requirements seamlessly.

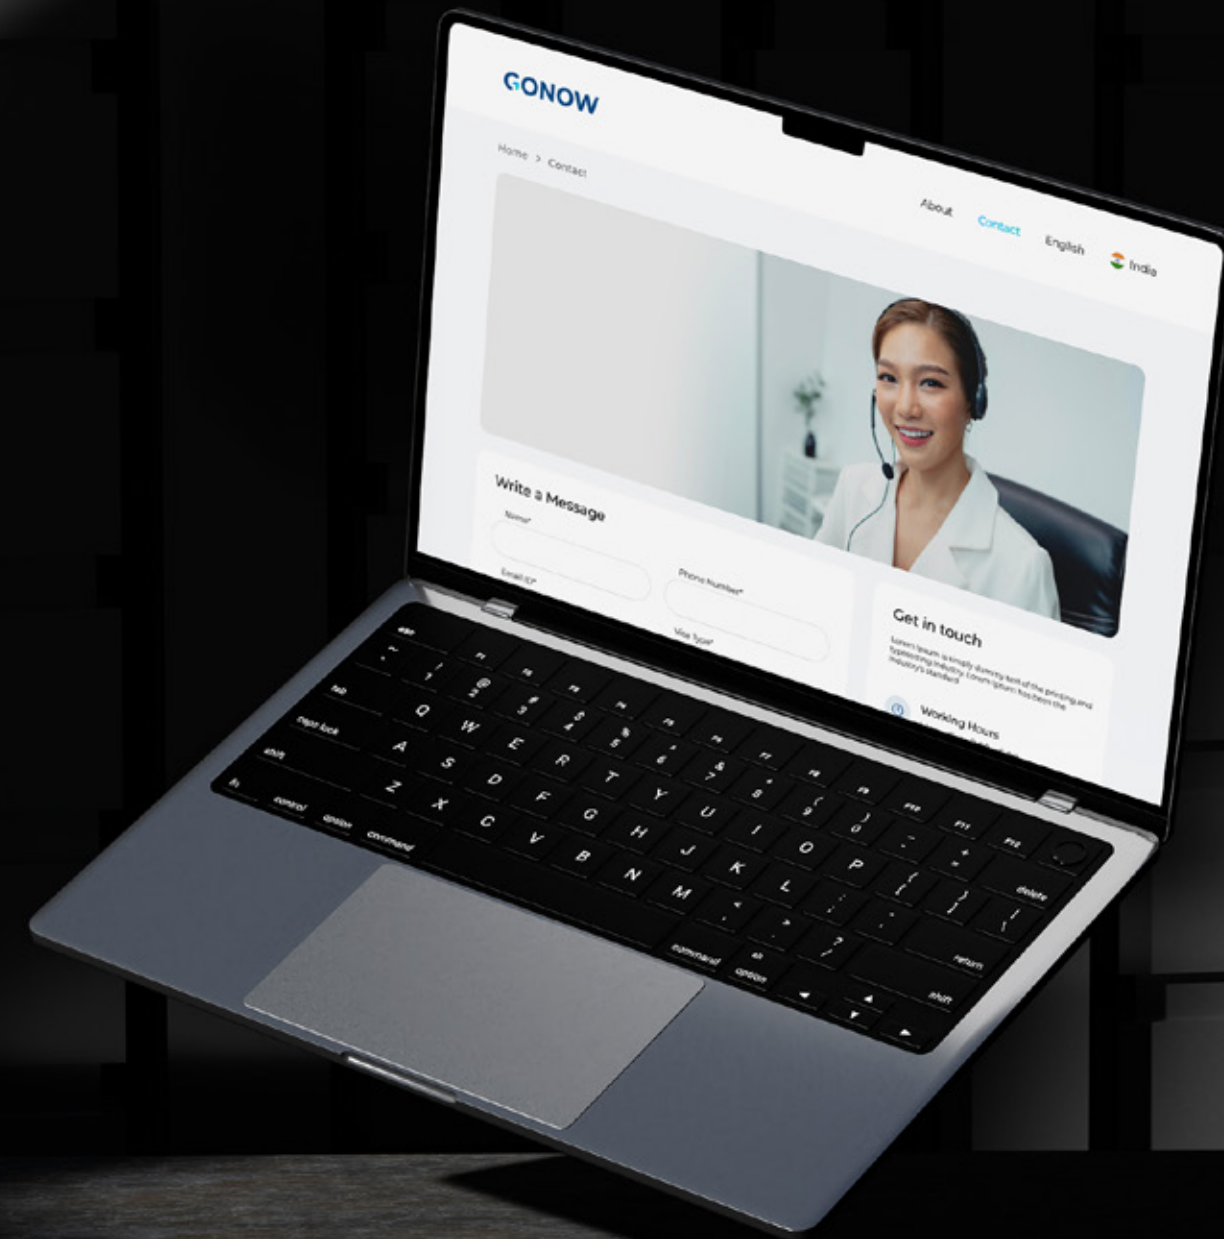

Gonow

Go Now, a visa company in Dubai, wanted an efficient system for customer queries. We developed a streamlined platform that provides users with clear details on visa requirements and charges, making the application process straightforward and user-friendly

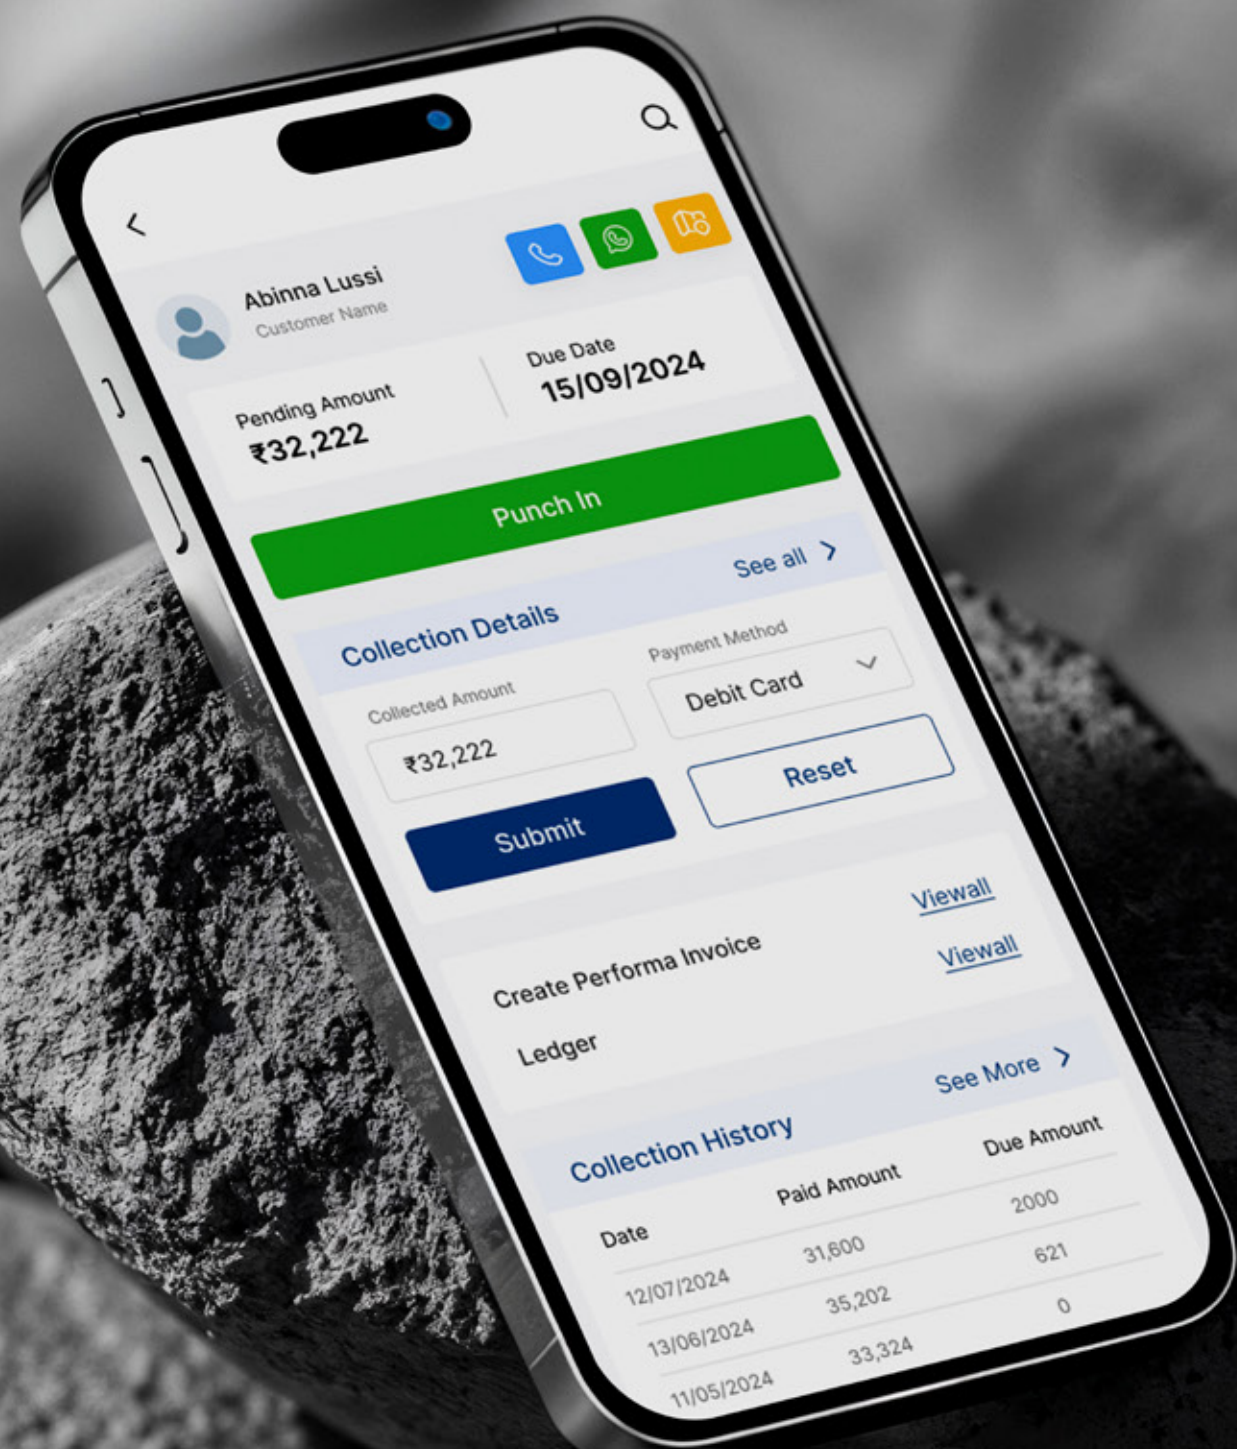

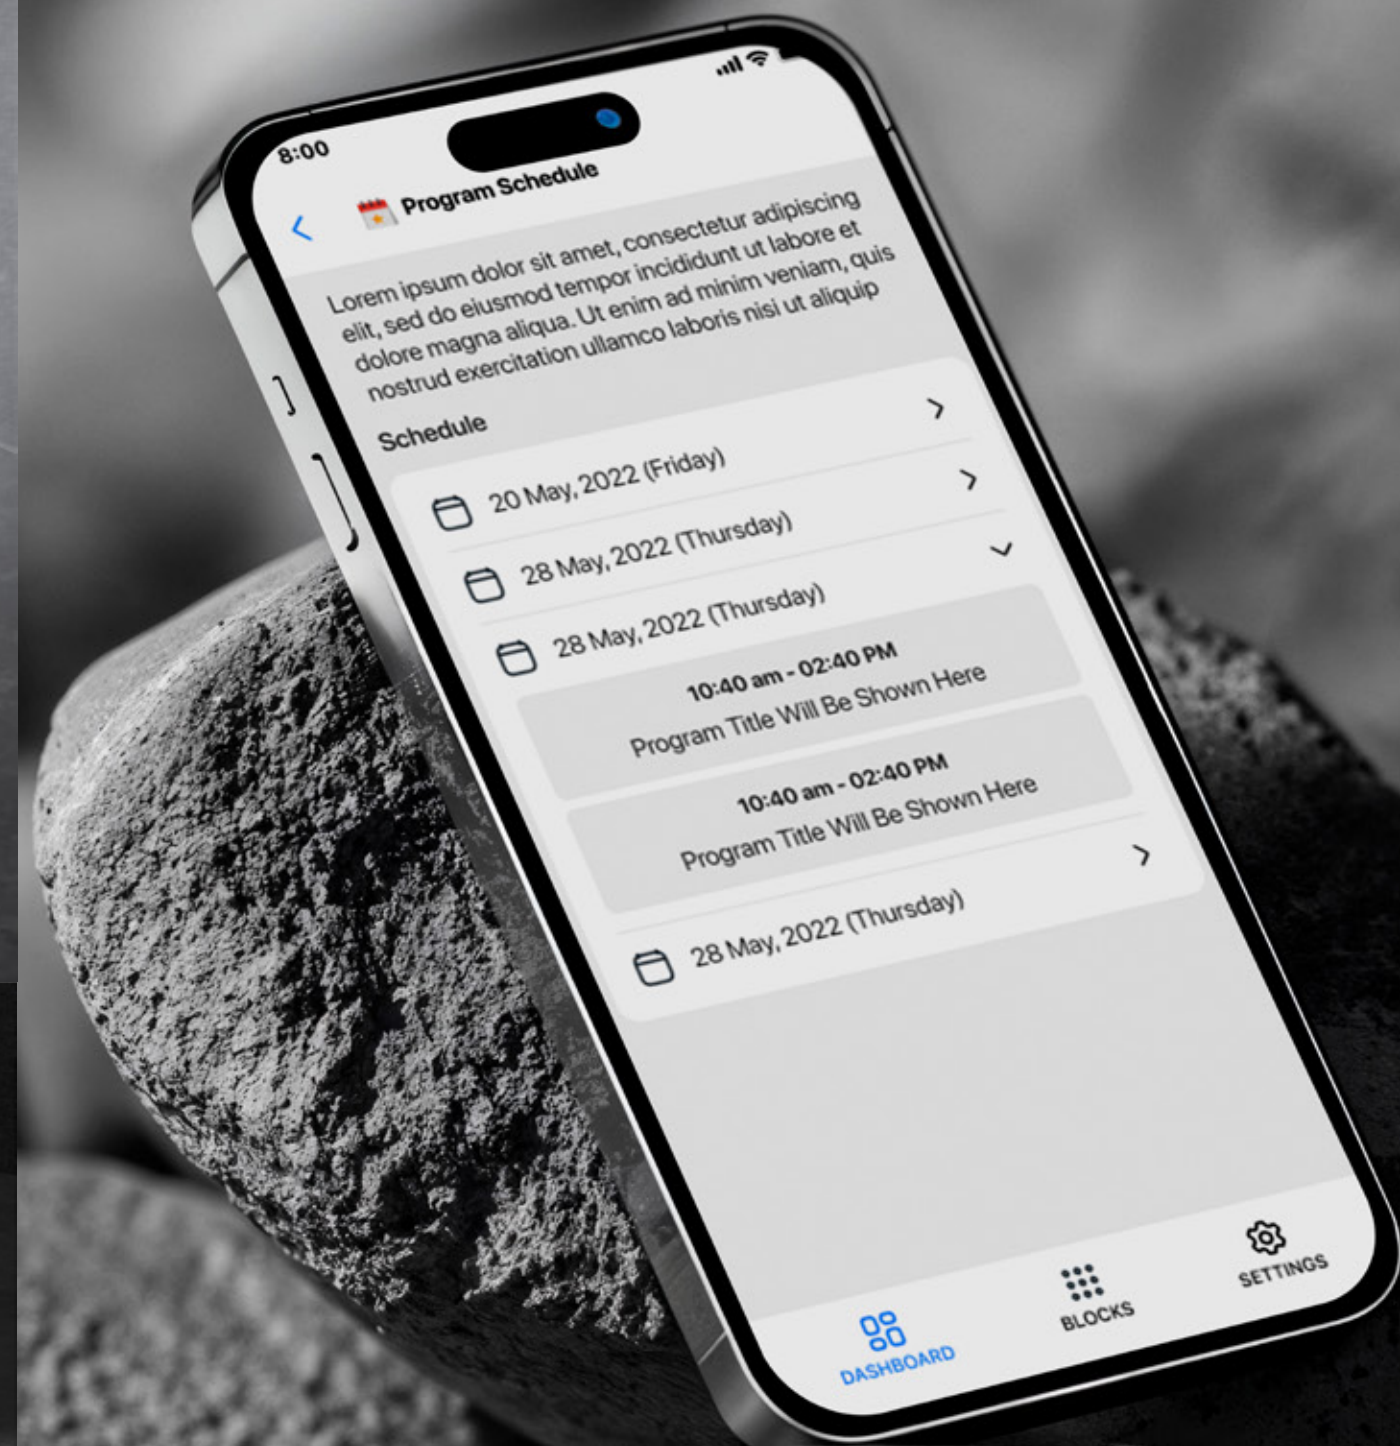

Malabar Group

Malabar Group, a leader in automobile parts distribution, needed a system for efficient route-based payment collection and sales rep management. We delivered a tailored solution to streamline these processes, enabling their team to track payments, manage sales activities, and optimize operational efficiency.

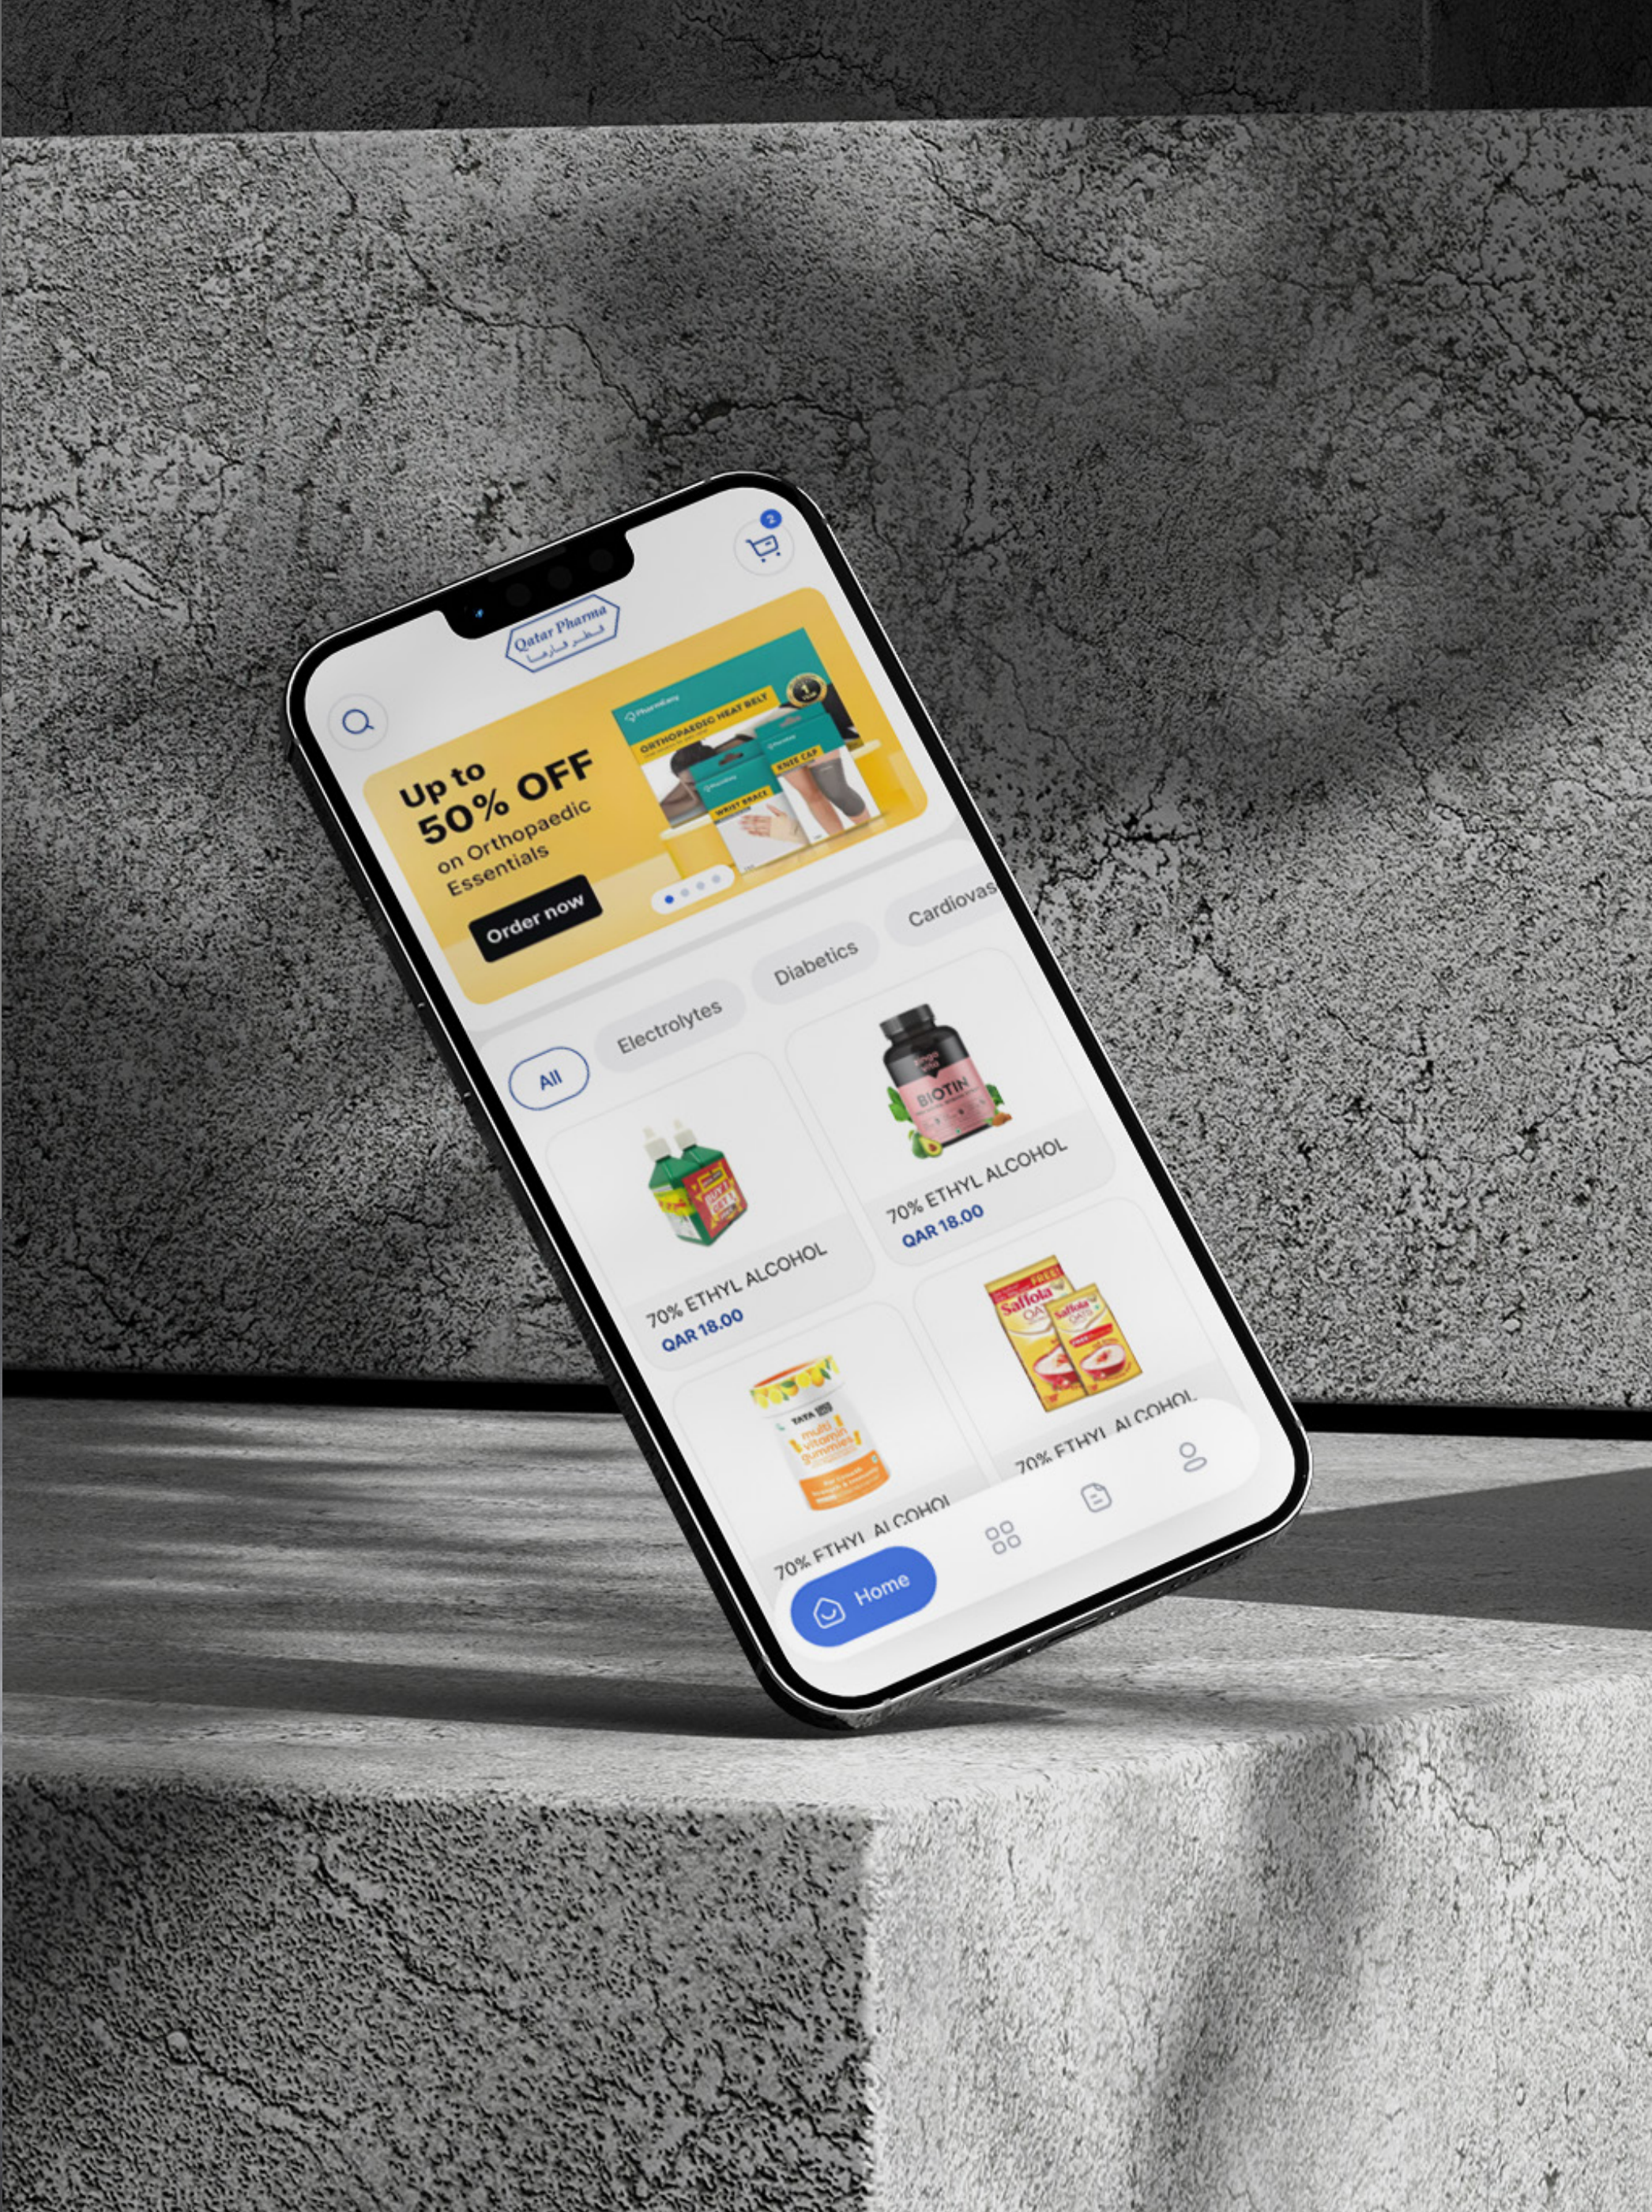

EA Munc

We developed a custom application for E.A.MUNC (E.Ahamed Model United Nations Conference) to support high school delegates as they engage in global issue discussions and explore solutions through diplomacy. The app includes features like student registration, real-time chat, delegate bureau access, and secure student logins, fostering a platform for collaboration, critical thinking, and innovative problem-solving among young leaders

Qatar Pharma

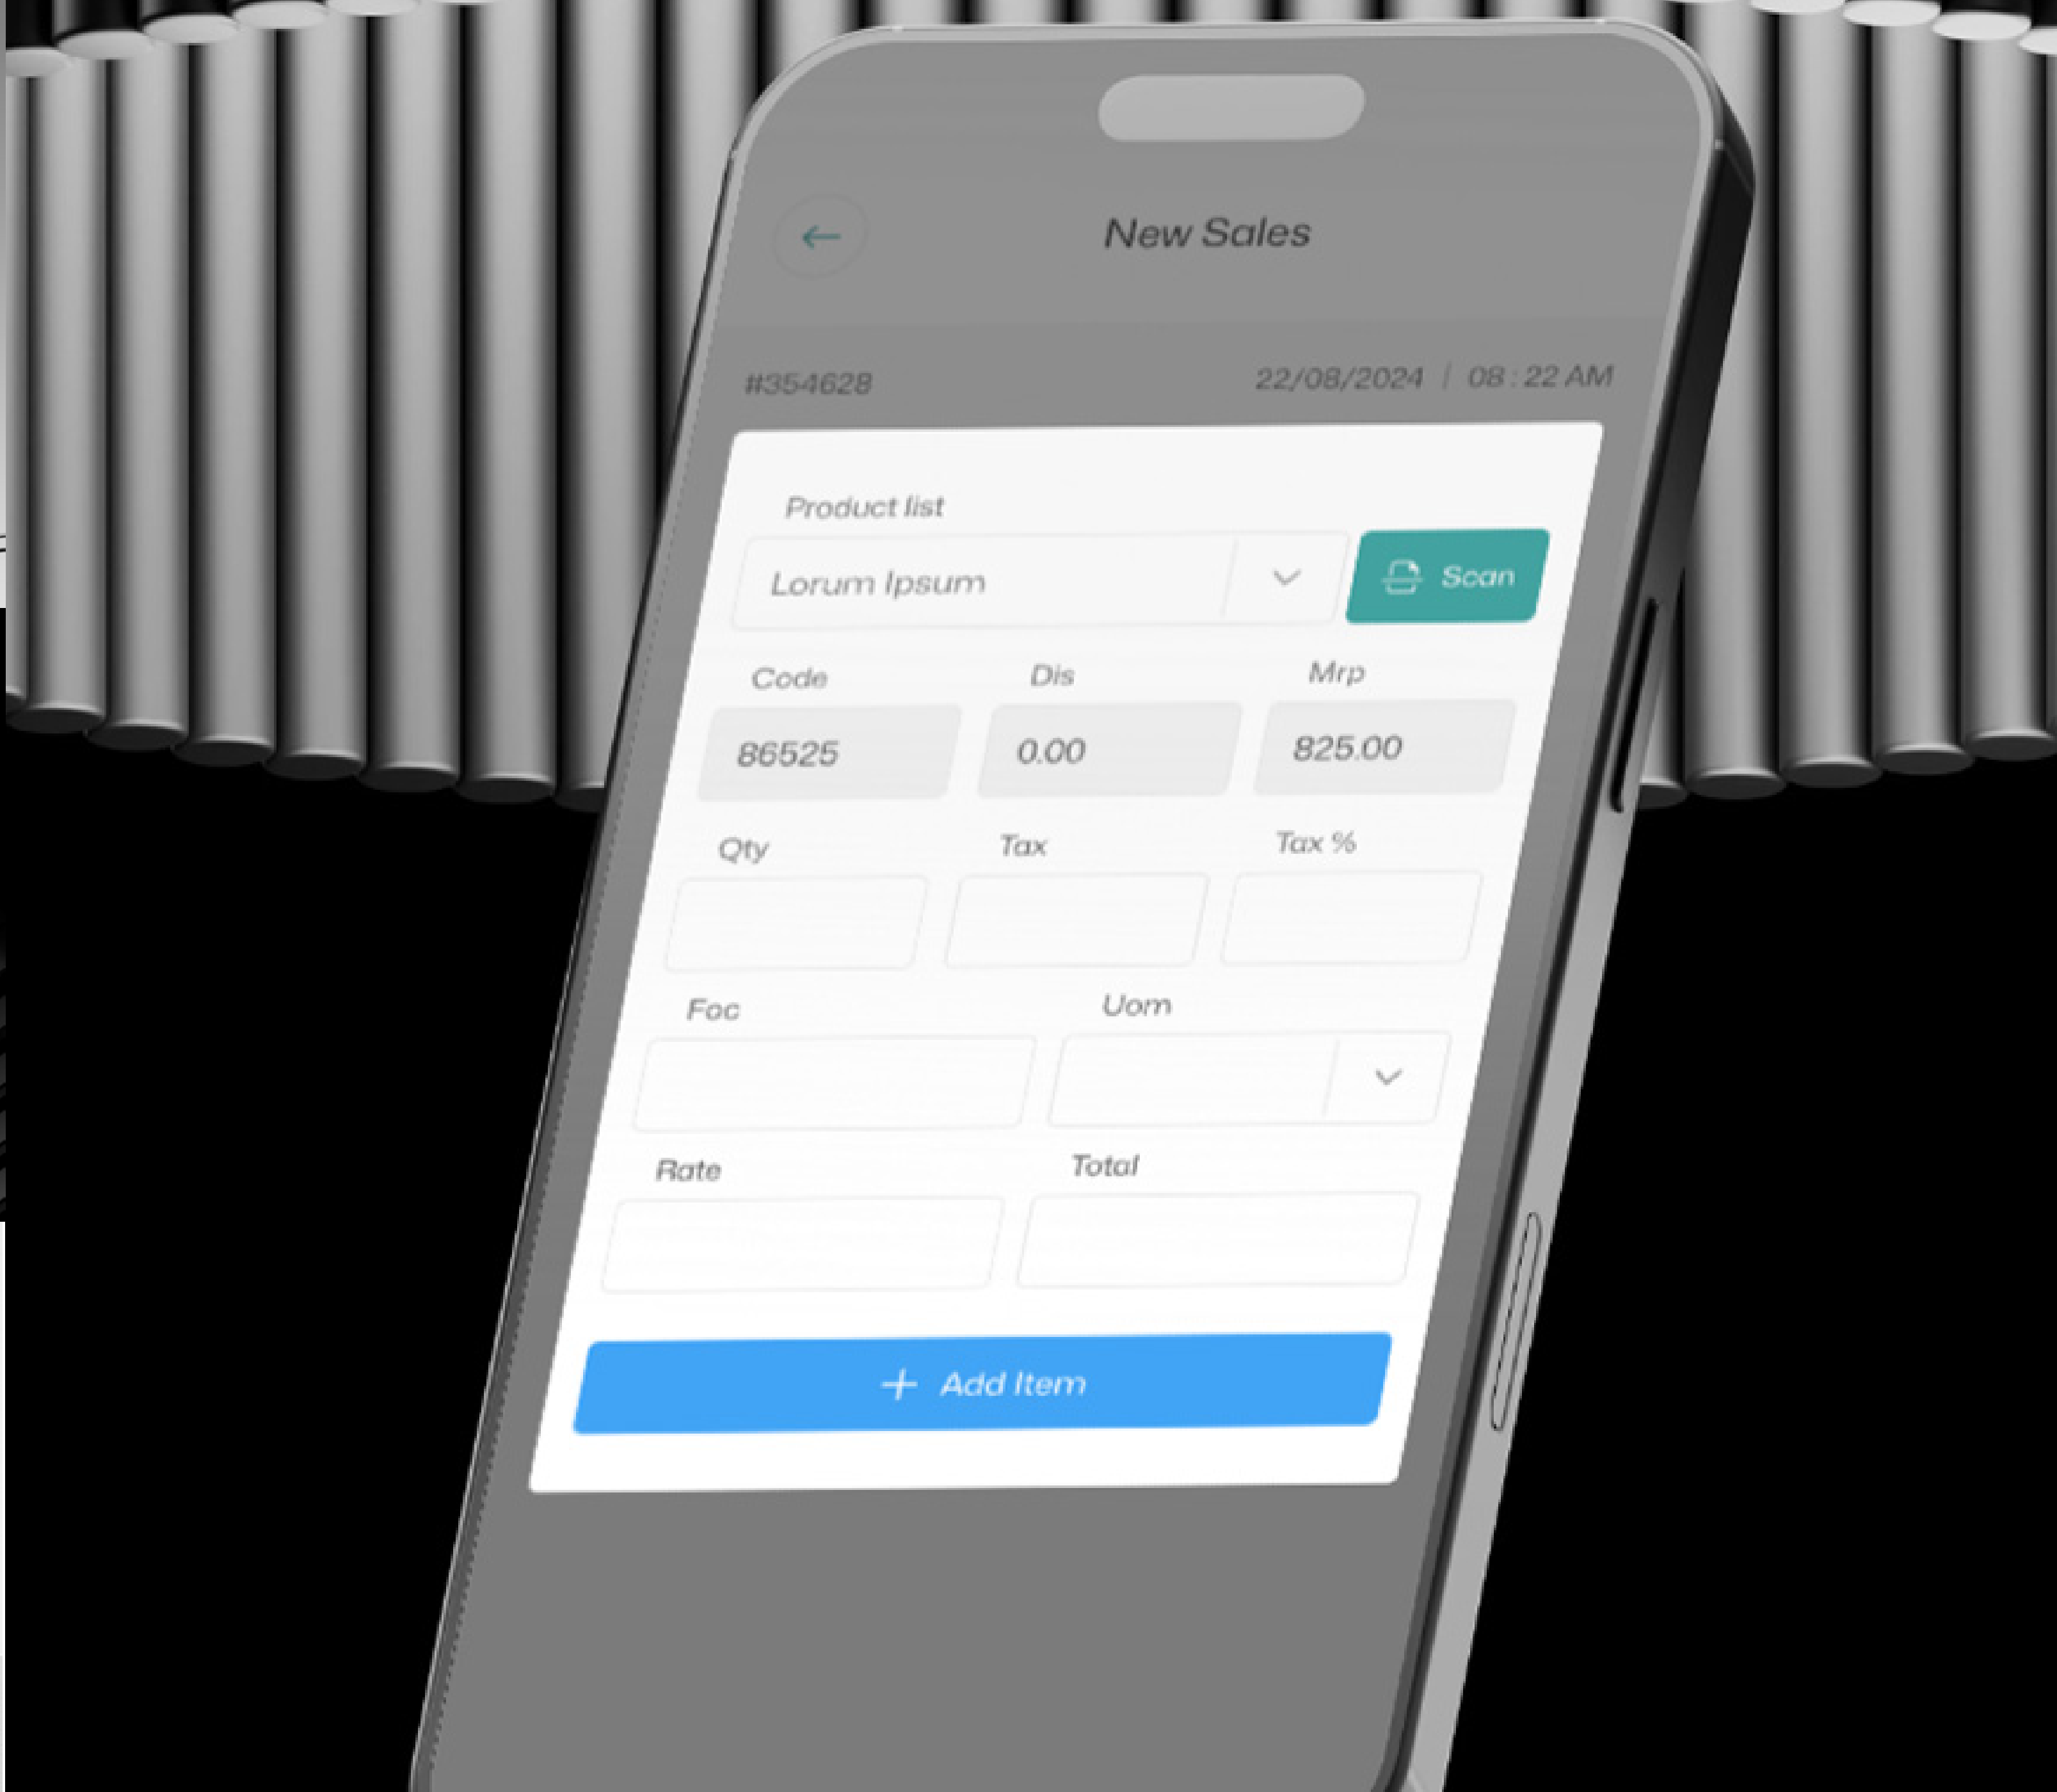

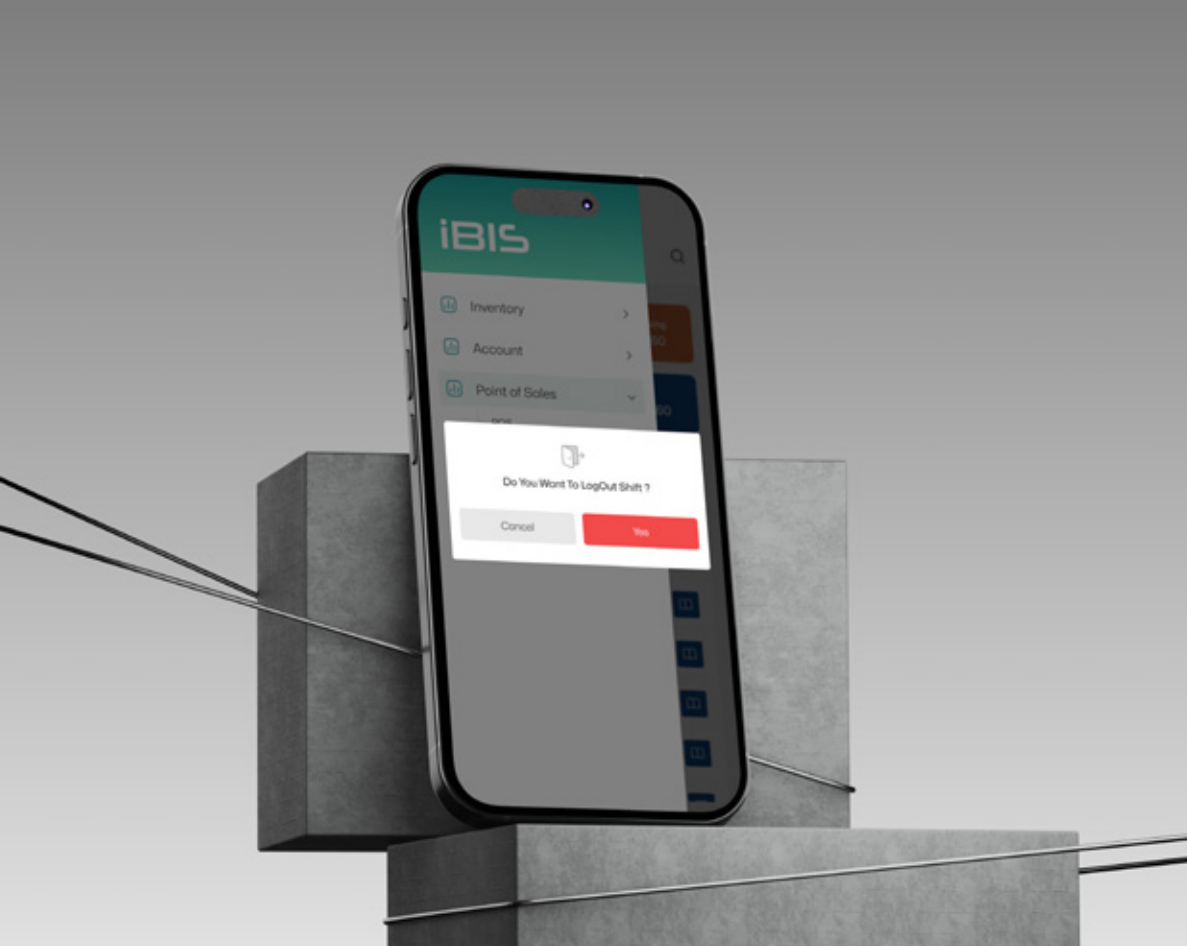

We developed a comprehensive e-commerce application for Qatar Pharma, specializing in pharmacy products. This app allows users to easily browse, purchase, and get updates on a wide range of health and wellness products, providing a seamless, user-friendly shopping experience tailored for the pharmaceutical industry.

A photograph of two men in green button-down shirts looking at their smartphones. The man in the foreground is smiling and looking down at his phone. The man in the background is also looking at his phone. The image has a teal overlay on the left side where the text is located.

IBIS

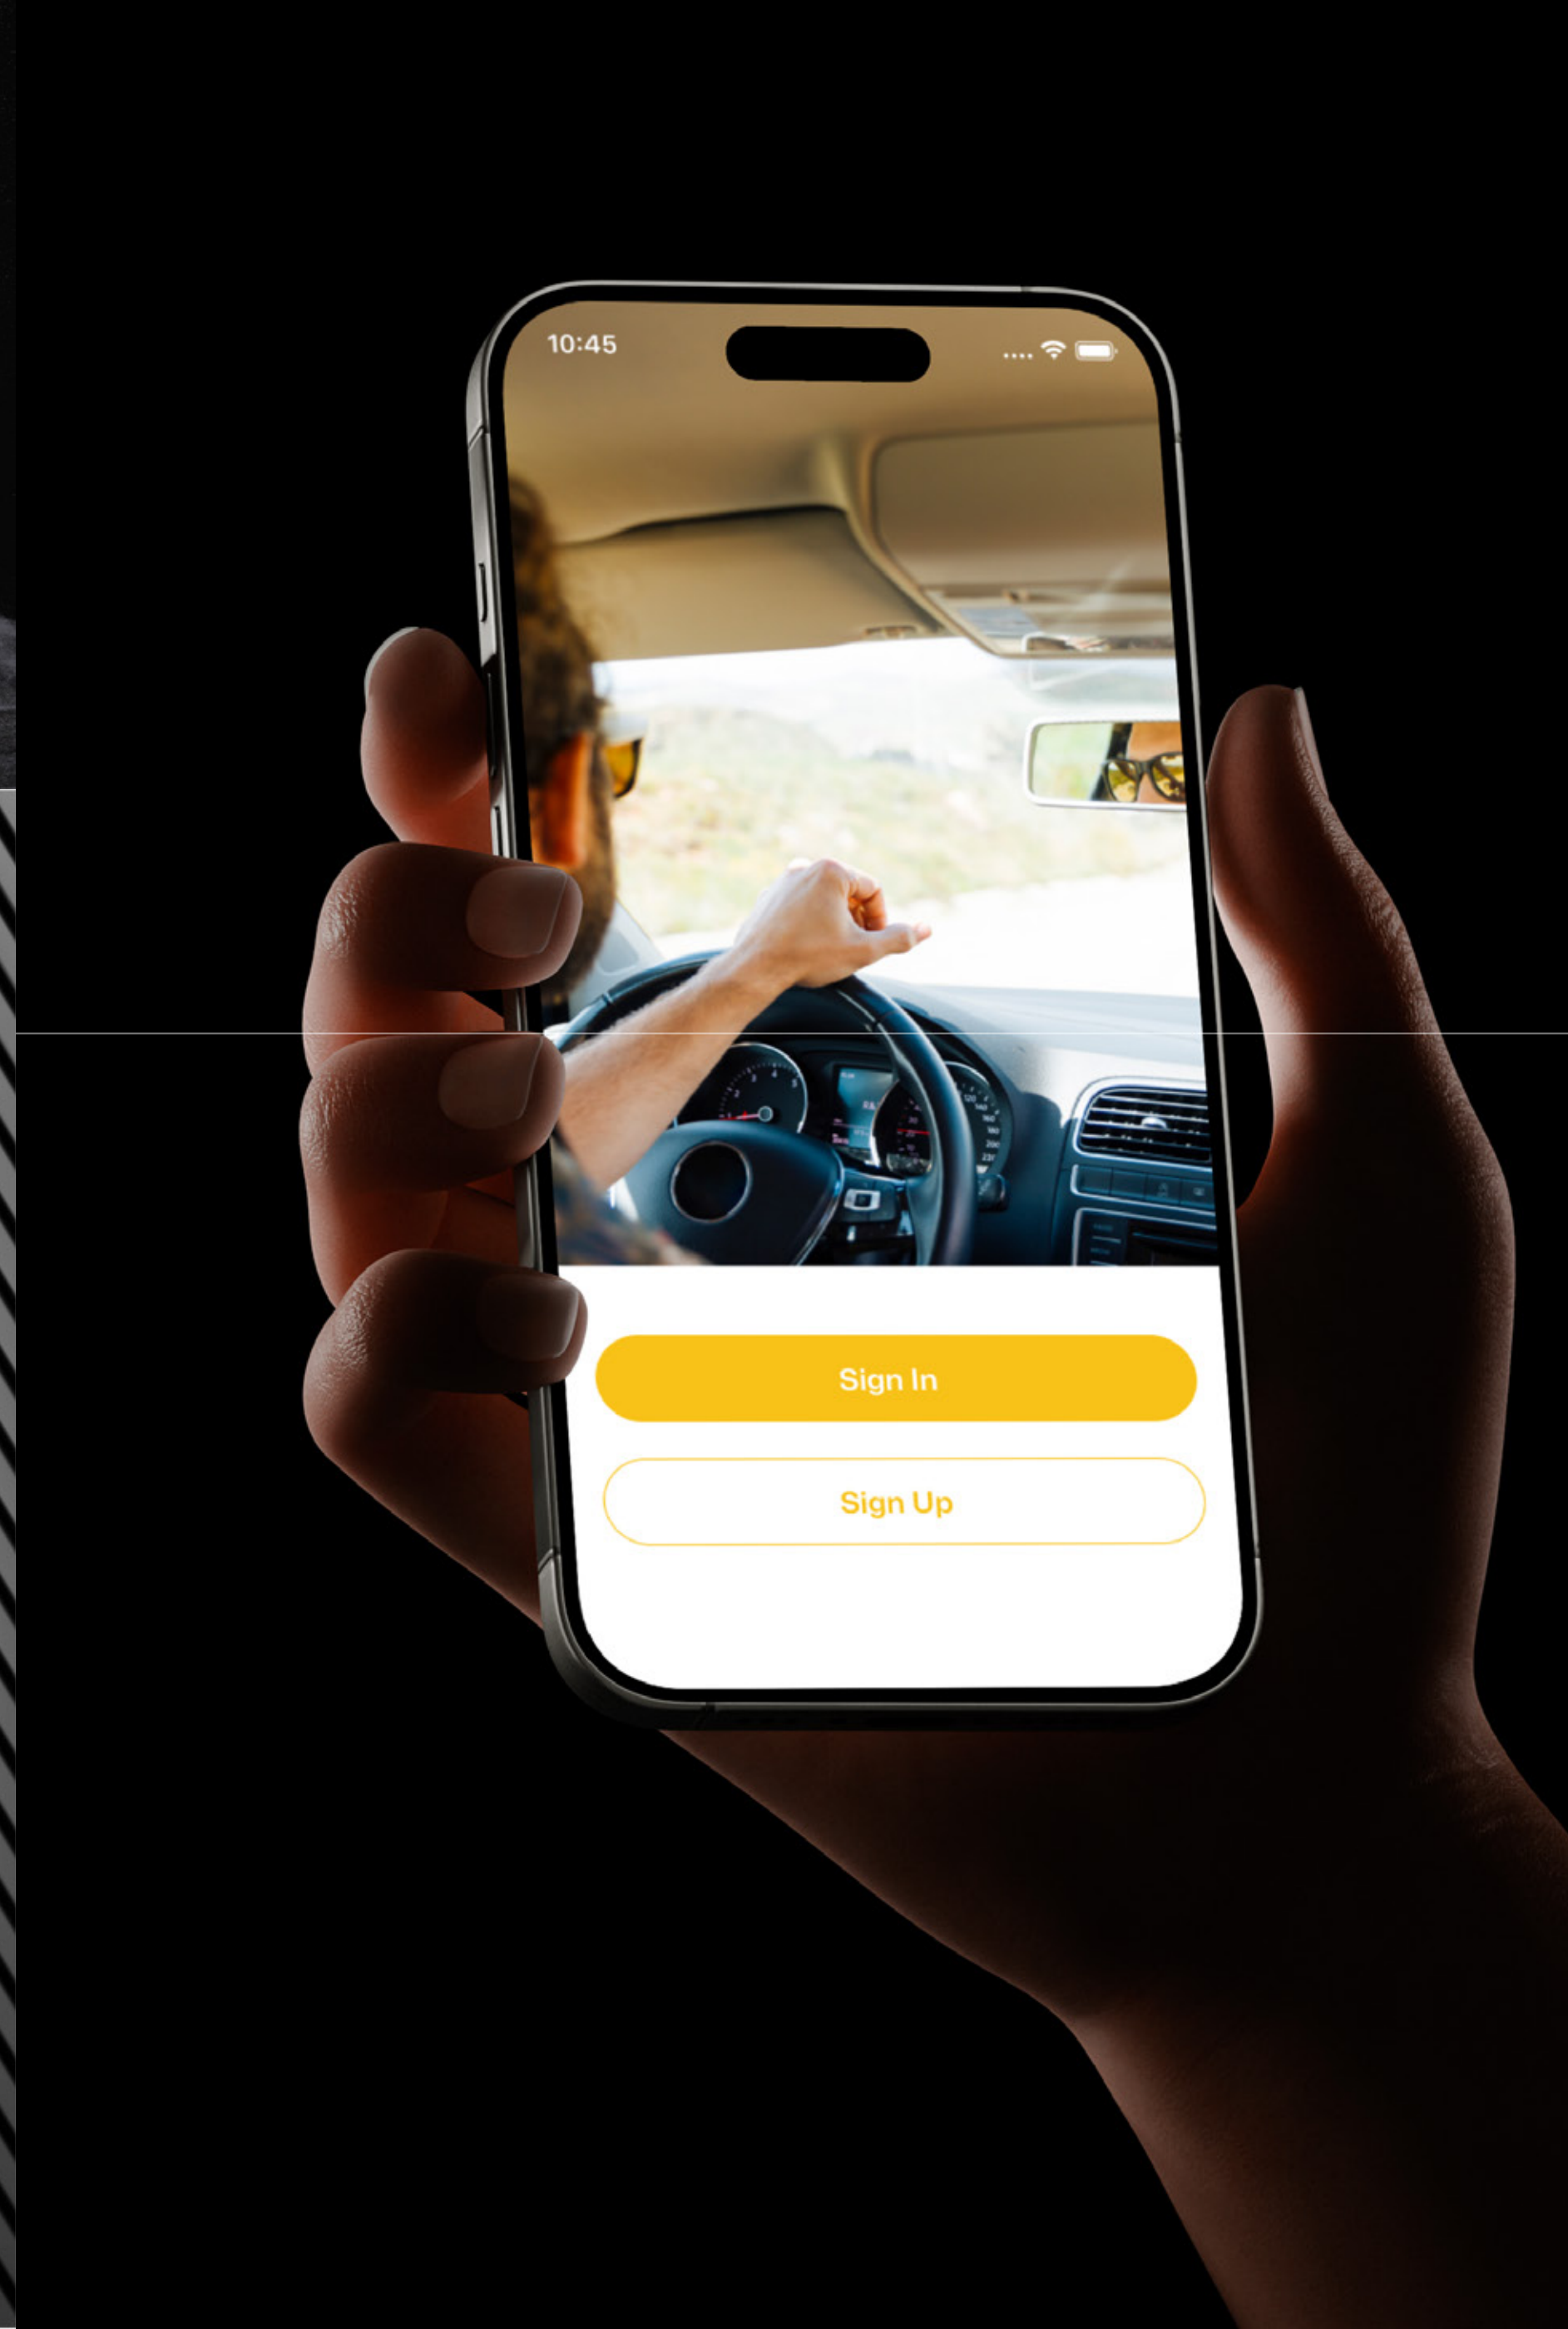

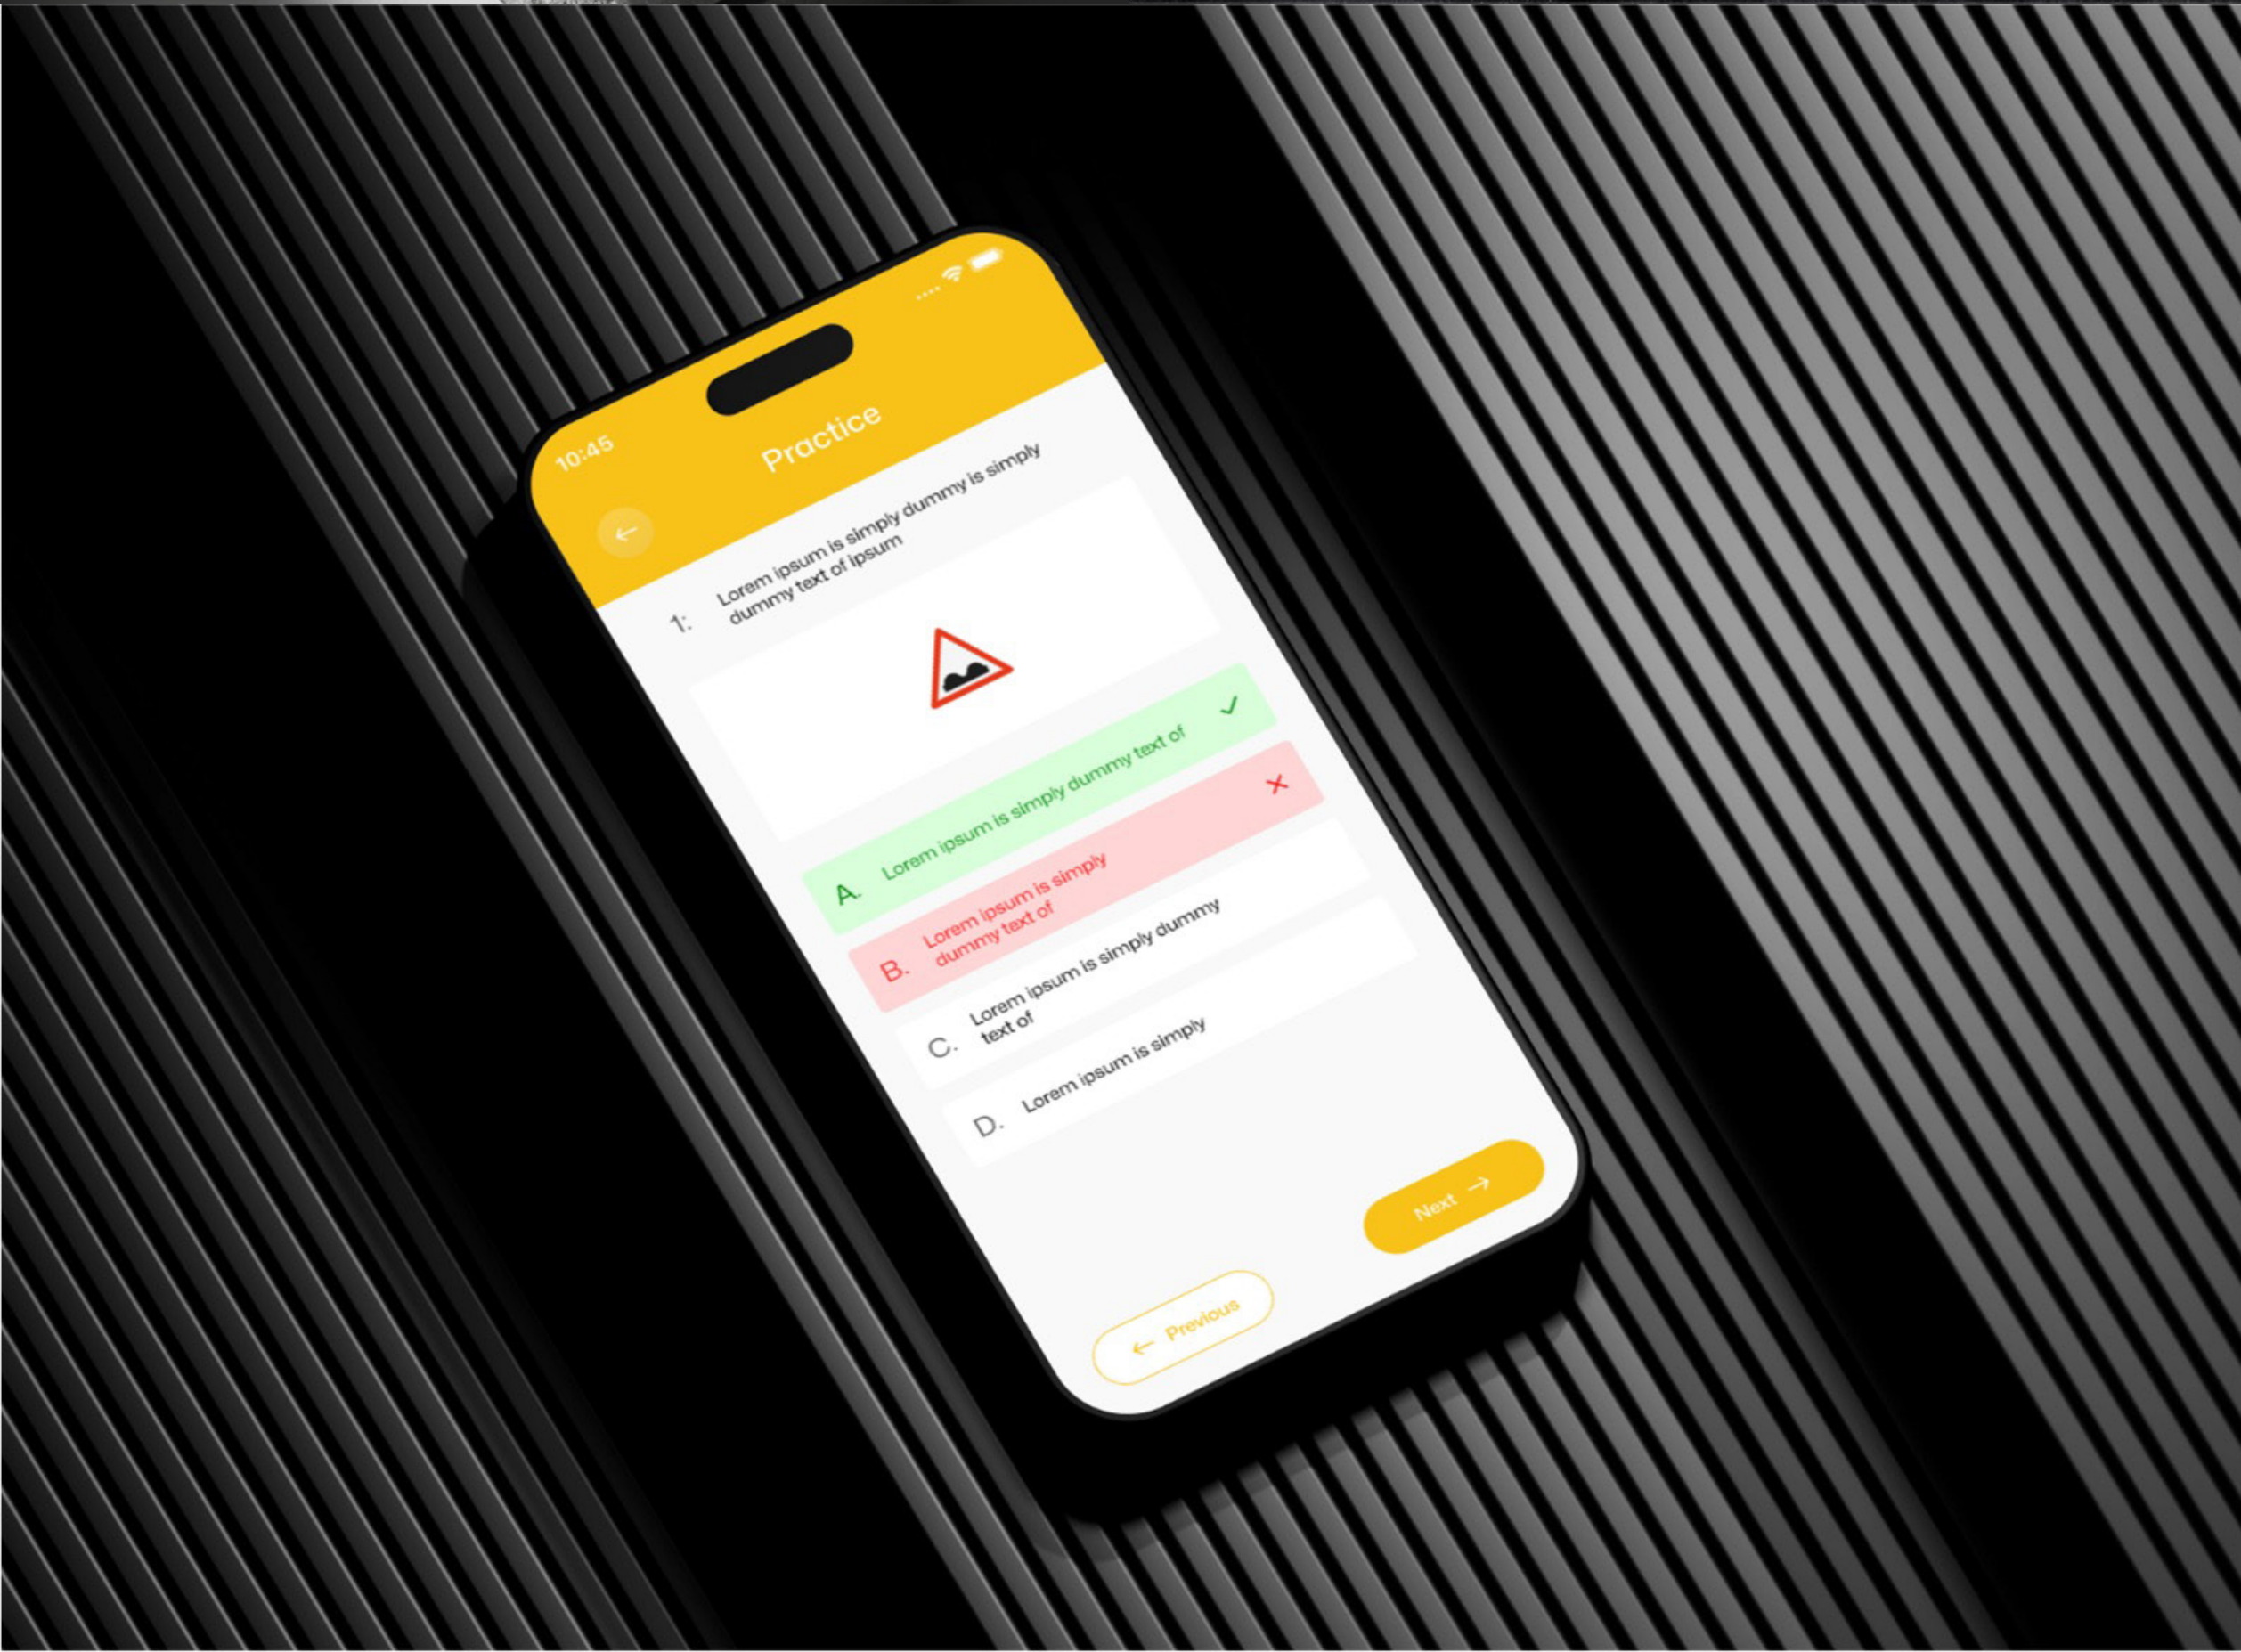

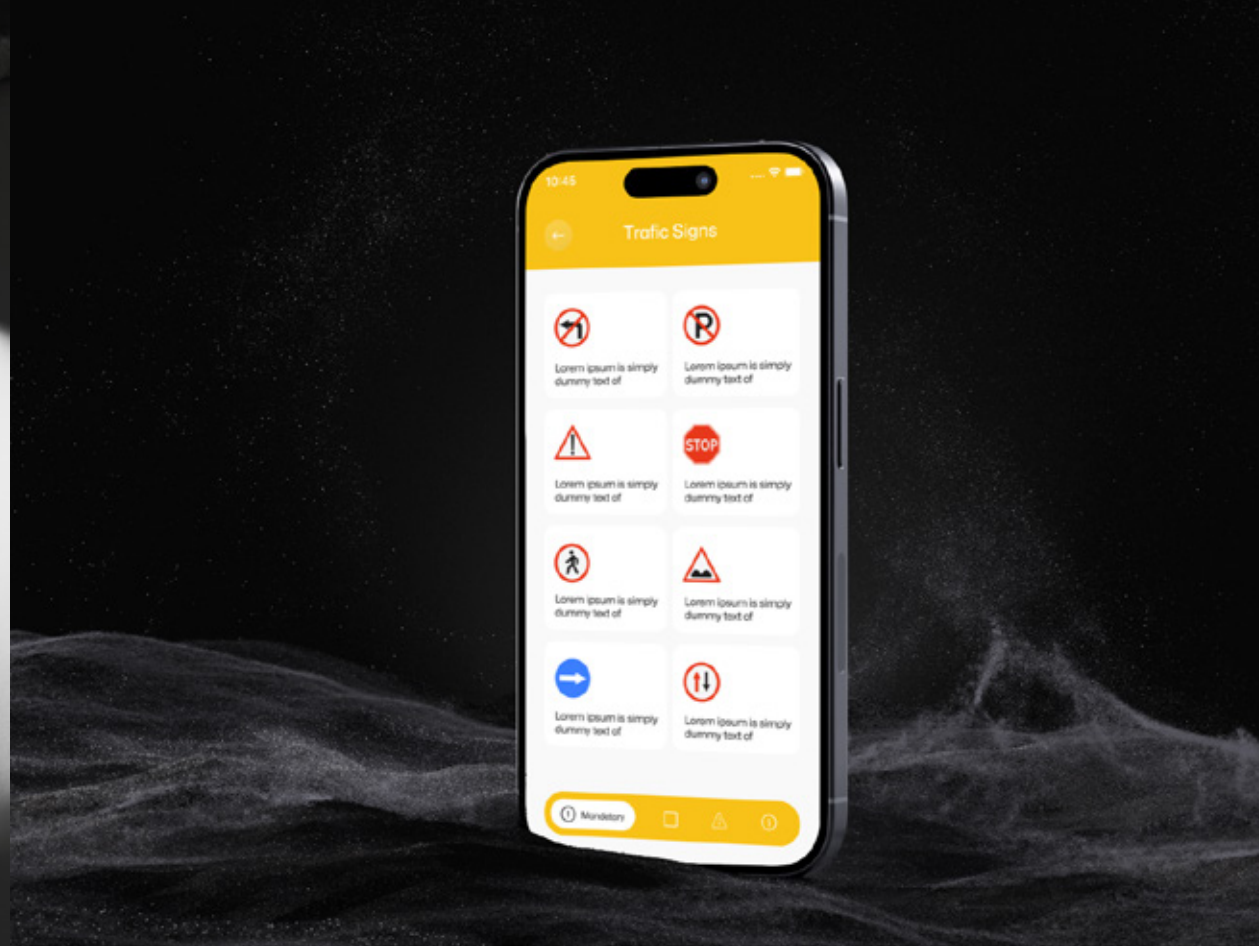

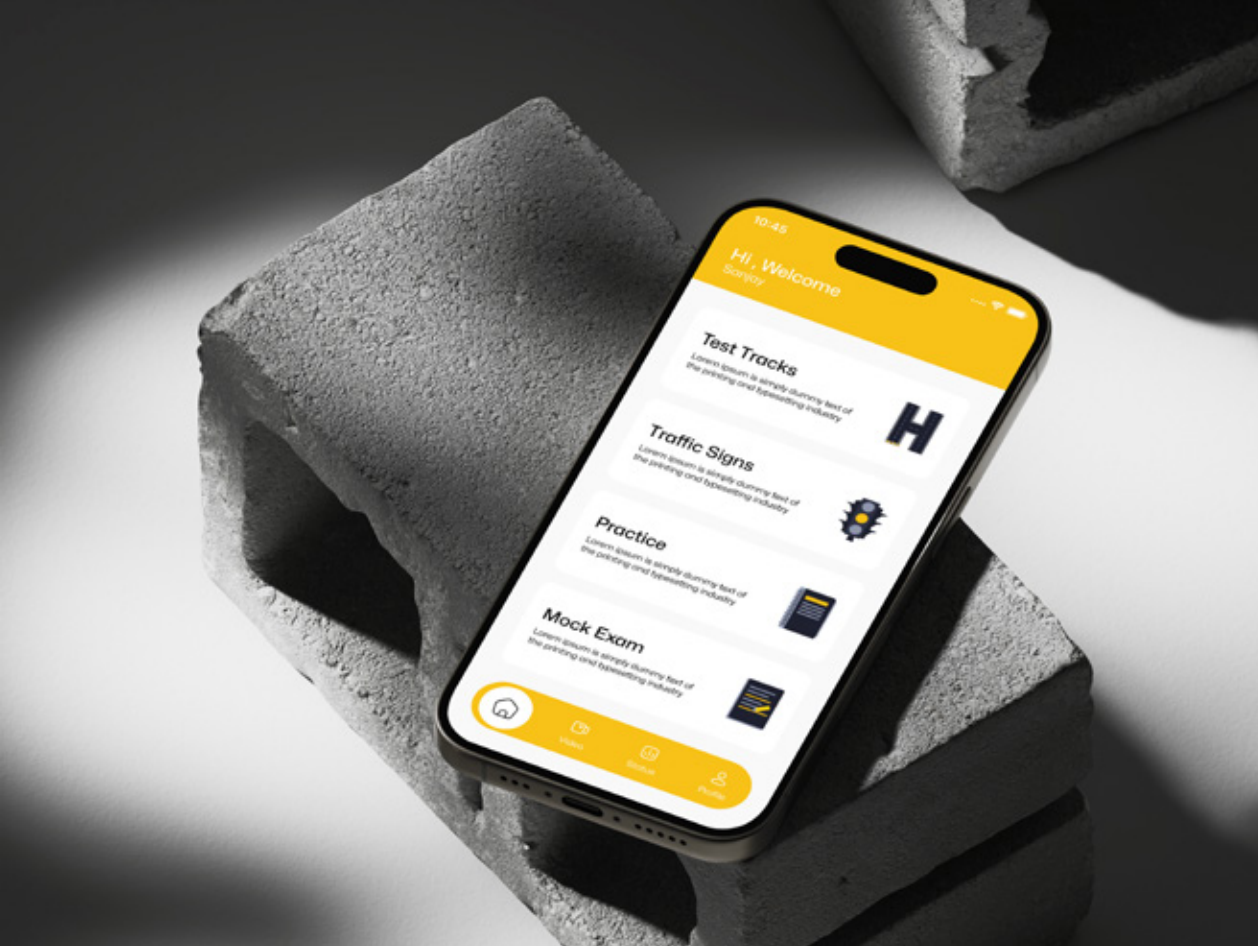

At the forefront of global ERP innovation, Ibis has consistently delivered cutting-edge enterprise solutions that empower businesses to thrive in a dynamic marketplace. Now, we've taken their visionary software to the next level by developing a state-of-the-art mobile application, bringing unparalleled convenience and functionality to their customers' fingertips.

Logic Driving Academy

Logic Driving Academy stands as a premier driving school, renowned for its commitment to excellence and personalized one-to-one training. To further elevate the learning experience, we have developed a sophisticated mobile application that seamlessly integrates education, practice, and progress tracking, empowering students to take control of their driving journey like never before.
